IMCAS NEWS

SESSION FORMAT

DEBATE
Open debates offer a lively and fruitful discussion on controversial issues. Predetermined hot topics allow the audience to interact with the debaters.

ECONOMIC FORUM
Sessions dealing with economic matters such as: new developments of products/devices or their applications, as well as analysis of the aesthetic market.

INTENSIVE SESSION
Intensive sessions offering in-depth coverage of a single subject.

FOCUS SESSION
Being the core of the congress scientific program, focus sessions are scheduled so as to allow maximum attendance. Lectures are delivered by recognized international scientists & experts in the field and cover the major topics of the congress.

CONTRIBUTING LECTURES
Selection of short presentations based on abstracts submissions.

SYMPOSIA
Exhibiting companies provide promotional and educational information on their products and services directly to meeting attendees. Symposia didactic lectures content is not endorsed by IMCAS.

VIDEO / LIVE PATIENT DEMONSTRATION
Interactive sessions presenting video / live demonstrations.

POSTERS / E-PAPERS
Posters are displayed during the whole conference period. The author(s) are standing by their poster the last conference day at lunch time, to answer any question. E-papers are displayed during the whole conference period, at the multimedia center. Delegates are able at any time to directly ask questions to the author(s) through e-mail.

CONFLICT OF INTEREST DISCLOSURE

- How does IMCAS broadcast the information to its speakers? Scientific lectures are presumed to be based on objective interpretations of evidence and unbiased interpretations of facts. The integrity of our conference requires disclosure of the possibilities of potentially distorting influences. The audience may then judge and, if necessary, make allowance for the impact of the bias on the information being reported. In general, the safest and most open course of action is to disclose activities and relationships that, if known to others, might be viewed as a conflict of interest, even if speakers do not believe that any conflict or bias exists. This is why each speaker is asked to display his or her disclosure slide before beginning to lecture.

- What about the level of “significance” in terms of interest? Whether an interest is “significant” will depend on individual circumstances and cannot be defined by a dollar amount. Participation on a board of directors or any other relationship with a product, device or company should be carefully considered for possible disclosure. In addition speakers should also carefully consider disclosure where circumstances could suggest bias against a product, device, or company.

- How about speaker(s) declaring a “no Conflict of Interest”? Neither the speaker nor any member of his/her immediate family has a significant financial arrangement or affiliation with the product, device or company involved in the congress nor any potential bias against another product, device or company.

IMCAS offers to its participants Continuing Medical Education credits (CME), necessary for every practitioner in order to confirm his/her quality and to bring himself/herself up to date regarding the fast development of medicine. The number of CME credits that IMCAS offers to its participants varies according to the duration of the congress and the organism of accreditation, given that the evaluation differs from one country to another. IMCAS is an international congress and it is accredited at three levels:

ACCREDITATION IN FRANCE
Accreditation in progress

IMCAS TV
IMCAS TV streamlines IMCAS 2013 program by browsing throughout its hottest industrial and medicinal subjects. More than an online TV set, each year IMCAS TV intends to bring interviews to another level by mixing questions, debates, facts, figures and fresh news that will make you stick around.

IMCAS channel is a spectacular opportunity to start a conversation with a professional on so many different topics from the latest scientific developments that will keep all of us up-to-date, to the legislation of our profession, to finding tangible solutions to a specific patient problem and last but not least to the overall industry trends.

IMCAS TV explores a broad spectrum of subjects for its viewers including the latest developments in medicine and surgery with a special focus on how to bring your business forward using the latest marketing & digital tools and the new IT-products of our exhibitors for the year to come.

Aired live within the Palais des Congrès de Paris, this network features physicians, companies’ representatives, financial analysts, the IMCAS Course Director and the Scientific Coordinators themselves. IMCAS Industry Tribune coordinators give an overview of the current year while companies representatives will announce their upcoming novelties and scientific experts from all around the globe will discuss latest controversies and debates.

Interviews, news flash, talk shows... IMCAS TV is thus an amazing opportunity for companies, practitioners and analysts to discuss and confront their opinions and expertise. A channel any IMCAS participant should stay tuned in.

### WELCOME TO IMCAS Annual Meeting 2013

This year, we intend to bring the same teaching challenge and enjoyable events, adding to the program a personal and proactive touch, in order to celebrate IMCAS 15th Annual Meeting. Though for the past 15 years, we built our own luck and success through hard work and achievement, we are also aware that this progress is a tribute to our guests.

That’s why although celebrating its own birthday, IMCAS would like to be the one giving presents.

For its 15th Annual Meeting, IMCAS will indeed build a partnership with a non-profit-making organization and will donate a percentage of each of the conference’s registration fees. With this commitment in mind, IMCAS 15th edition will be at the forefront of promoting the often forgotten reconstructive aspect of aesthetic procedures. Several actions will be undertaken throughout the conference and within the program itself to make an impact in our community.

Skin, nose, face, breast, body, as usual, you can count on a very rich and diversified program in which everyone will find something to learn and carry on back to its practice. IMCAS 15th Annual Meeting will be a chance to remind the world that any plastic surgeon or dermatologist is foremost a doctor, always reaching for making its patients better.

Happy birthday to IMCAS, and a special thanks to its participants for making this congress each year a greater one. Welcome to Paris!

Overall, IMCAS Annual Meeting 2013 features during 4 days:

- a “one of a kind” Injectables Cadaver Live Workshop!
- a “one of a kind” Lipofilling & Stem cells Live Workshop!
- more than 85 scientific sessions
- 25 sponsored symposia
- 25 live demonstrations
- 12 teaching courses
- the Industry Tribune
- and the Incubator Corner
